## Purdue Avenue Area Water Main Replacement Project Installation of New 8" & 12" PVC Water Mains, Fire Hydrants, and services in the Sunkist Park Area

<b>What</b>	Installation of approximately 10,600 LF of 8" PVC water mains, fire hydrants, fire services, and domestic services.
<b>When</b>	February 7, 2022 – November 2022
<b>Where</b>	Installation of New PVC Water Mains, Fire Hydrants, Services and appertences will be installed in Purdue Ave, Woolford St, McDonald St, Slauson Ave, Selmaraine Dr, Etheldo Ave, Emporia Ave, Port Rd, Hammack St; install approximatley 10,600 LF of 8" PVC.
<b>What to Expect</b>	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The services will generally be installed using an air compressor and pneumatic boring tool. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the new main are completed crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.
<b>Contacts</b>	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033. Project Coordinator: Linda Cunningham
