

CONSTRUCTION NOTICE

Serving Californians Since 1929

Installation of New Water Mains

What	Replacement of existing steel mains with new 8" & 12" PVC mains, and installation of new water services and fire hydrants.
When	Construction will commence on October 17th, 2016 with completion expected by March 31st, 2017. The City of Temple City working hours are from 7:00 am to 5:00 pm. The working hours for City of El Monte are from 8:00 am to 3:00 pm.
Where	The new pipeline will be installed in Halifax Rd. from Lower Azusa Rd. to Key West Ave., Doreen Ave. from Lower Azusa Rd. to Freer St., Key West Ave. from Halifax to Pal Mal Ave., Arden Dr. from La Rosa Dr. to Freer St., Miloann St. and Hallowell Ave. between Freer and Halifax, Freer St. from Arden Drive to El Monte Ave., and portions of Lower Azusa Rd. between Arden and Pal Mal.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The services will usually be installed using an air compressor and pneumatic boring tool. The streets will generally remain open to traffic during the construction period; however there may be periodic closures. Parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the new main are completed crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

Golden State Water Company thanks you for your patience while we work to improve your water system.

At Golden State Water Company, it has been all about water for more than 80 years. Our team of professionals delivers reliable, quality water and great service to customers in 75 communities across California.
