

CONSTRUCTION NOTICE

Installation of New Water Mains

Yale Ave., Harrison to 7th

What	Replacement of existing cast iron mains with new 8" PVC mains and installation of new water services and fire hydrants.
When	Construction is expected to commence around mid-July 2017, with completion expected by mid-August 2017. The City of Claremont permitted working hours for the work along Yale Ave. are from 7AM to 5PM.
Where	The new pipeline will be installed along Yale Ave., from Harrison Ave. to Seventh St. and in Harrison St. from Yale Ave. north of Harrison to Yale Ave. south of Harrison.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The streets will remain open to traffic during the construction period; however there may be periodic delays. Parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the new main are completed, crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

Golden State Water Company thanks you for your patience while we work to improve your water system.
