

More than \$500 Thousand scheduled to be invested in Clearlake

Golden State Water is committed to responsibly maintaining the local water infrastructure to ensure we can continue providing customers with premium water service. These investments protect the safety and reliability of the local water system.

Benefit to Customers

Below is one of the major projects planned for the Clearlake Customer Service Area in 2022. For additional project details, please visit www.GSWater.com/clearlake.

Project Name: Sonoma Water Treatment Plant

Construction Summary Construction crews will work to replace the Granular Activated Carbon media in existing contactor vessels, repair underdrains at the surface water treatment plant and replace the media in existing filter vessels at the surface water treatment plant.

Project Rational The project is required to ensure the continued reliability and water quality to local customers in Clearlake.

Working Hours Monday through Friday | 7 a.m. – 4 p.m.

Anticipated Project Timeline November 2021 through March 2022

Project location 13455 Sonoma Avenue in Clearlake

Companywide, an investment of more than \$18 million to replace old meters, services, safety equipment, etc. will be made throughout GSWC service areas. This investment is critical to protect the quality and reliability of water service.

Further, we employ proactive maintenance programs and update our aging pipeline infrastructure on a replacement schedule of approximately 100 years, which is twice the national replacement average of every 200 years.

Golden State Water also remains focused on investing to modernize the customer service experience with improved online and account management resources.
