

## Trussel Plant Improvements Project

<b>What</b>	A Construction Project that includes erecting 2 buildings, installation of a 400,000 gallon water storage tank and associated pumping and disinfection equipment will be beginning soon at the east end of Trussel. This work will allow the well already on site to be placed in service.
<b>When</b>	Construction on the new pipeline will commence on <u>February 4, 2019</u> with completion expected on <u>December 31, 2019</u> . Weather delays may push project completion to a later date. The working hours are from <u>8:00 AM to 5:00 PM</u> .
<b>Where</b>	All work will take place on the Golden State Water Company site at the east end of Trussel Way. When on site work is completed, another project will occur to improve that part of Trussel that fronts the well site including new sidewalks and paving.
<b>What to Expect</b>	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Final paving will be completed at the end of the project. Please expect an increased level of noise during the construction period. Weekly activities such as trash pickup will not be interrupted.
<b>Contacts</b>	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

Golden State Water Company thanks you for your patience while we work to improve your water system.
