

GOLDEN STATE WATER COMPANY STATEMENT REGARDING THE SUPERIOR COURT OF THE STATE OF CALIFORNIA'S FINAL DECISION REJECTING THE CITY OF CLAREMONT'S EMINENT DOMAIN CASE

"Golden State Water Company is proud of its record of service in Claremont and is pleased that the Hon. Richard L. Fruin Jr.'s (Judge, Los Angeles Superior Court) Final Decision recognizes our commitment to the community and rejects the city of Claremont's attempt to take over the water system. The ruling notes that evidence was clear, convincing and indisputable that the city's eminent domain lawsuit was without merit.

Our focus has always been on delivering quality water and great customer service, and we look forward to continuing to serve Claremont. We recognize the trial has been divisive, but we will work diligently to rebuild trust and strengthen relationships with customers and community leaders. We value the opportunity to serve Claremont and are proud to provide safe, reliable drinking water to current and future generations."
