

Golden State Water Participates in 60th Annual Redbud Parade and Festival

Golden State Water Company (Golden State Water) was proud to participate in Clearlake's 60th Annual Redbud Parade and Festival on July 1 at Austin Park. This year's parade featured floats and vintage cars with a "Grand Old Flag" theme, and the family-friendly festival was highlighted by food, music, rides and fireworks.

The Redbud Festival, which featured the 18th Annual Show and Shine Car Show and the 49th Annual International Worm Races, raises funds for the Lakeshore Lions Club to provide support for local programs benefitting children, seniors, youth sports and public safety organizations.

"Golden State Water is honored to play a role in this annual festival that brings our community together through great food, family-friendly fun and an incredible fireworks show," said Paul Schubert, General Manager of Golden State Water's Northern District. "We are dedicated to being a local partner and appreciate any opportunity to make an impact in our community."

Golden State Water has been providing high-quality, reliable water service to Clearlake for more than 35 years, and regularly supports organizations and events in the community.
