WY 2018 Total Available Water Supply	8052 AF
WY 2019 Total Available Water Supply	8053 AF
Individual or Aggregate	Individual
Conservation Standard *	-67 %
Higher Conservation Standard	No
Step 3.1 Notes and Comments	GSWC customers have done a tremendous job conserving and complying with the State's restrictions during the drought. We encourage all of our communities to continue to using water responsibly and keep the existing conservation momentum. As such, voluntary conservation targets may be proposed in the coming weeks pending actions by the CPUC in their upcoming resolution W-5103 to be heard by the commission on June 23rd. **
Uploaded Worksheet #1	http://drinc.ca.gov/DNN/Portals/0/SelfCert/74886797-81ab-4c94-b440-6ce284aa01bc.xlsx
