

Golden State Water Sponsors 28th Annual Dinosaur Dash in Tustin

Golden State Water Company (Golden State Water) was proud to sponsor the 28th Annual Dinosaur Dash on November 4, 2018, in Tustin. The annual event raises critical funds to support more than 24,000 students in the Tustin Unified School District.

New this year, a half-marathon was added to the exciting list of races. Participants could also choose to run a 10k or 5k or partake in a 50k or 15k bike tour. A free expo before and after the races offered families a chance to enjoy activities, visit booths, and eat at the food court that featured cuisine from local restaurants. Golden State Water volunteers hosted a booth, manned bike tour rest stations, and assisted with event registration and parking on the day of the race.

“We enjoyed spending the morning supporting this great event,” said Ken Vecchiarelli, General Manager of Golden State Water’s Orange County District. “Golden State Water was honored to be a sponsor for this event, which helps to ensure our local students have all they need to succeed in the classroom.”

Golden State Water presented attendees with conservation giveaways and other informational handouts on water safety and conservation. All proceeds from the Dino Dash benefited the non-profit Tustin Public Schools Foundation and local public schools.
