**GOLDEN STATE WATER COMPANY'S
NOTICE OF APPLICATION
REQUESTING TO INCREASE RATES
CLEARLAKE SERVICE AREA
(APPLICATION NO. 23-08-010)**

On August 14, 2023, Golden State Water Company (GSWC) filed what is known as a “General Rate Case” (GRC) application with the California Public Utilities Commission (CPUC). The application filing by GSWC requests to increase rates over a three-year period, covering the years 2025 through 2027. This request to increase rates would be effective beginning January 1, 2025.

In this application, GSWC is requesting to consolidate its Arden Cordova and Clearlake Customer Service Areas under a new Northern Region consolidated rate structure for both its residential and non-residential customers. Under GSWC’s special request, the rates in Clearlake would be frozen at their current level.

Why is GSWC requesting this rate increase?

The CPUC requires GSWC to submit a GRC application every three years. The purpose of this GRC is for GSWC to cover its anticipated costs from 2025 through 2027 for improvements to the water supply system, depreciation expenses, federal income tax, property taxes, and allocated general office and district office expenses..

Under GSWC’s proposal to consolidate rates, metered rates in Clearlake would be frozen at their present level and would not be increased, **excluding any applicable surcharges**. The table below shows the proposed revenue increases by customer class for Clearlake if GSWC’s Special Request for the Northern Consolidation of Arden Cordova and Clearlake districts is not approved:

Proposed Revenue Increases (Dollars in Thousands)

How could this affect my monthly bill?

Consolidated Rate Structure Bill Impact

Under GSWC’s proposal to consolidate rates, metered rates in Clearlake would be frozen at their present level, **excluding any applicable surcharges or credits**. However, GSWC is proposing an increase to the general Schedule AA-4 (Private Fire Service) from \$6.50 to \$8.00 per inch of diameter of service connection.

Stand-alone Bill Impact

If the proposed application is approved by the CPUC but the requested consolidated rate structure is denied, the average residential customer with a 5/8 x 3/4” meter using 5 Ccf would see a monthly bill increase of \$24.06 (or 22.66%), from \$106.17 to \$130.23 in 2025. In 2026 the average residential customer would see a monthly bill increase of \$11.63 (or 8.93%), from \$130.23 to \$141.86, and a monthly bill increase of \$13.03 (or 9.19%), from \$141.86 to \$154.89 in 2027, **excluding any applicable surcharges or credits**.

How does the rest of the process work?

This application will be assigned to a judge, who will consider proposals and evidence presented during the formal hearing process. The judge will issue a proposed decision which may adopt GSWC’s application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners.

Parties to the proceeding may review GSWC's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels.
