SUBJECT: *Disposition of the Tax Cuts and Job Act Memorandum Account*

PURPOSE

GSWC is seeking authorization to amortize the amount recorded in the Tax Cuts and Job Act Memorandum Account ("TCJAMA"), via a one-time refund to all ratepayers, and close

the TCJAMA upon completion of the refund. This advice letter is being made in accordance with Ordering Paragraph (“OP”) Nos. 1 and 62 in Decision No. (“D.”) 19-05-044, dated May 30, 2019.

BACKGROUND

On December 22, 2017, the California Public Utilities Commission’s (“Commission”) Water Division sent a letter to all Class A and B Water and Sewer utilities under its jurisdiction ordering them to file Tier 1 advice letters to establish a memorandum account to track the impact on Commission-jurisdictional revenue requirement caused by changes in the business tax rate and other potential tax code changes in the Tax Cuts and Job Act (“TCJA”).

The TCJA, among other things, significantly reduced the federal tax rate (from 35% to 21%) for the calendar year 2018. The Water Division initiated the TCJAMA because authorized utility rates for 2018 were based on the federal tax rate of 35%. The TCJAMA tracked the realized increases or decreases in GSWC’s CPUC-jurisdictional revenue requirement resulting from the TCJA. On December 29, 2017, GSWC filed Advice Letter No. 1735-W to establish and implement Preliminary Statement, Part EEEE, Tax Cuts and Job Act Memorandum Account, which became effective on January 1, 2018.

GRC DECISION

On May 30, 2019, the Commission issued D.19-05-044, which among other things, adjusted the authorized federal tax rate in prospective water rates to reflect the changes in the federal tax rate for businesses. OP No. 1 approved the Settlement Agreement between GSWC and the Public Advocates Office (formerly known as Office of Ratepayer Advocates or ORA), which resolved all matters in GSWC’s GRC application (A.17-07-010, filed July 19, 2017).

OP 1 in D.19-05-044 states,

1. The joint motion filed on August 15, 2018, for the adoption of the Settlement Agreement, is granted. The Settlement Agreement attached to this decision as Appendix A is adopted.

OP 62 in D.19-05-044 states,

62. Golden State Water Company is authorized to file a Tier 2 advice letter no later than 30 days after the adoption of this decision to dispose of the Tax Cuts and Jobs Act Memorandum Account balance via a one-time refund to its ratepayers, and to close the account upon completing the refund.

TCJA CUSTOMER REFUND

As of May 31, 2019, GSWC recorded (\$7,194,621) in the TCJAMA. This amount will be refunded to all water customers in each of GSWC’s ratemaking areas, via a one-time refund (credit) to their monthly service charge, based on their meter size, beginning on the

effective date of this advice letter. Table 1.0 below summarizes the components of the TCJAMA.

Table 1.0 TCJAMA Refund Summary

Excess Deferred Amortization	Rate Base Impact	Section 199	Tax Rate Change (35% to 21%) Actual Rate Implemented July 1, 2018	Interest Accrual thru May 2019	Total Refund to Customers
(\$2,835,662.50)	\$60,008.49	\$828,046.39	(\$5,074,115.87)	(\$172,897.63)	(\$7,194,621.13)

The components of the TCJAMA balance are consistent with the tax law changes described in the D.19-05-044, which incorporates the effects of TCJA for the first time in GSWC's rate setting effective for the test year 2019; however, the TCJAMA includes only those that are relevant for the calendar tax year 2018 to bridge the 2016-2018 and 2019-2021 rate cycles.

The relevant components of the TCJAMA are:

"Excess Deferred Amortization" to provide a benefit to customers of the reversal of temporary normalized tax differences during 2018 at the new reduced federal tax rate of 21 percent (pursuant to TCJA Section 13001(b)), as compared to the previous higher rate of 35 percent when they originated prior to 2018. Computed using the average-rate-assumption method ("ARAM") (as required by TCJA Section 13001(d)), the amount of this benefit is \$1,962,960, which has been grossed up to \$2,835,663 as a revenue requirement.

"Rate Base Impact" to recover from customers the change in revenue requirement resulting from a reduction to the deferred tax liability offset, also as a result of the tax rate reduction. Normalized temporary tax differences that were included in ratebase at the former higher tax rate (e.g., the deduction of repair expenditures for tax purposes that are capitalized for book purposes) were adjusted to reflect the lesser impact of them when recomputed at the new lower rate. The gross incremental reduction of the deferred tax liability is \$1,176,134, which, when weighted and grossed up as a revenue requirement represents an offset in the net liability to customers of \$60,008.

"Section 199" to recover from customers the revenue requirement of the lost benefit of the domestic-production-activities deduction under former IRC Sec. 199 that had been included as a flowed-through tax-favorable permanent difference when the tariff was originally established. TCJA Section 13305(a) entirely repealed the deduction, and GSWC therefore did not realize any benefit from the former tax law for tax year 2018. The tax-effected value of the lost deduction is \$579,104, which has been grossed up to \$828,046 as an offset in the net liability to customers.

"Tax Rate Change" is the revenue requirement adjustment for the difference between the old federal tax rate of 35% and the new federal tax rate of 21% for all water bills that were

generated during the period of January 1, 2018 through June 30, 2018¹. The total Tax Rate Change reflects the amount customers overpaid in federal taxes. The benefit to customers of applying the reduced tax rate for the first half of 2018 is \$5,074,116.

“Interest accrual thru May 2019” is to provide interest at the standard 90-Day Commercial Paper Rate applicable to the settlement of memorandum account balances. The interest benefit to customers is \$172,898.

The net TCJAMA balance from the above-described five components is \$7,194,621, and will be refunded to customers as a one-time surcredit upon the Commission’s approval of this filing.

Supporting workpapers that detail the calculations for each component of the May 2019 TCJAMA balance are being supplied to the Commission’s Water Division and the Public Advocates Office.

Once the refund has been issued to customers, as ordered, GSWC will close the TCJAMA and remove Part EEEE from its Preliminary Statement. GSWC will rollover any residual balance in the TCJAMA to its General Ratemaking Area Balancing Account.

Schedule No. R3-3
Irrigation Water Service To Forest Lawn
Memorial Park - Covina Hills

SPECIAL CONDITIONS

5. Quantity Fee for Recycled Water. GSW shall not assess a quantity fee for the quantity of recycled water used by the Cemetery for irrigation purposes.
6. Potable Water Quantity Fee. Should the Cemetery use potable water supplied by GSW for irrigation purposes following commencement of the use of recycled water for such purposes, GSW shall charge Forest Lawn and Forest Lawn shall pay to GSW a fee per hundred cubic feet of potable water served to the Cemetery ("Potable Water Quantity Fee"), which shall reimburse GSW for the variable costs of supplying potable water supplies to the Cemetery for irrigation purposes. The Potable Water Quantity Fee shall initially be equal to forty-nine percent (49%) ("Variable Cost Percentage") of GSW's Generally applicable water quantity fee pursuant to GSW's tariff schedule R3-1 or successor tariff. The initial Variable Cost Percentage is set forth in Advice Letter No. 1217-W.
7. The Variable Cost Percentage shall be adjusted, as necessary, concurrently with the effective date of each future change in GSW's CPUC-approved tariff schedule R3-1 or successor tariff. The methodology for said Variable Cost Percentage adjustment shall be the same as that set forth in Exhibit B to the Agreement attached to Advice Letter No. 1217-W.
8. Meter Service Cost. Forest Lawn shall reimburse GSW for any and all actual costs incurred by GSW in replacing the meters associated with providing potable water to the Cemetery for irrigation purposes, when such replacement is, in GSW's sole determination, necessary.
9. Potable Water Supplies During Drought Period Conditions; Rationing. The Parties acknowledge that the substitution of recycled water for a significant portion of the Cemetery's irrigation needs will result in a lower historical baseline of potable water service to the Cemetery in the future. GSW agrees that should it employ a rationing program during drought periods, which sets water supply allocations based upon historical baseline water use, Forest Lawn will be assigned an effective annual baseline use equal to its actual annual use of recycled and table water during any baseline period.
10. As authorized by California Public Utilities Commission, a one-time credit of \$815.40 is to be added to the customer's bill beginning on the effective date of Advice Letter No. 1777-W, which is July 31, 2019.
