SUBJECT

This advice letter requests to amortize the combined balance in the Water Revenue Adjustment Mechanism (“WRAM”) balancing account and the Modified Cost Balancing Account (“MCBA”) for GSWC’s Arden Cordova, Bay Point, Santa Maria, and Simi Valley Customer Service Areas. This filing will include the 2020 WRAM&MCBA balances along with all residual balances¹ from previous WRAM&MCBA and monies collected from Schedule 14.1 drought water use violation fines and drought emergency surcharges². The table below shows the combined balance by ratemaking areas:

	2020 WRAM/MCBA as of 12/31/20			ALL Residuals as of 1/31/21			Schedule 14.1 Surcharge	Grand Total

¹ Residuals as of January 31, 2021 from previous WRAM/MCBA filings along with unfiled 2019 WRAM/MCBA balances in Bay Point.

² Monies collected as of January 31, 2021

GSWC is requesting to refund an over collection in Bay Point of \$420,007 or -6.0%, \$572,857 or -3.9% in Simi Valley, \$495,699 or -3.3% in Santa Maria, and \$1,889,522 or -12.5% in Arden Cordova. Included within the Santa Maria balances is a credit from Schedule 14.1 premium allocation charges.

This request is made pursuant to Decision D.12-04-048 authorizing Golden State Water Company ("GSWC") to amortize its WRAM&MCBA account balances annually. D.12-04-048 ordering paragraph 5:

5. *Applicants must submit their annual request for amortization of net Water Revenue Adjustment Mechanism/Modified Cost Balancing Account balances by a Tier 1 Advice Letter on or before March 31st.*

Background

On May 8, 2009, the Commission issued Decision 09-05-005 authorizing the settlement agreements between GSWC and DRA on WRAM and Conservation Rate Design issues pursuant to Ordering Paragraph 1 from D.09-05-005:

1. *The Settlement Agreement, as modified by updated conservation rates set forth in Table 1 and Table 2 herein, is approved and adopted.*

The purpose and method of tracking WRAM and MCBA is outlined in the Settlement Section V. MECHANISMS FOR DECOUPLING SALES AND REVENUE:

- A. *The goals of the decoupling mechanisms in the Pilot Program are as follows:*
 1. *Sever the relationship between sales and revenue to remove any disincentive for GSWC to implement conservation rates and conservation programs.*
 2. *Ensure cost savings resulting from conservation are passed on to ratepayers.*
 3. *Reduce overall water consumption by GSWC ratepayers.*
- B. *Decoupling of GSWC will be accomplished through both the following mechanisms:*
 1. *A WRAM for each ratemaking area in Region 1 except Clearlake.*
 2. *An MCBA for each ratemaking area in Region 1 except Clearlake. MCBA's will replace existing cost balancing accounts for purchased power purchased water, and pump tax.*
- D. *In accordance with established Commission practice, the WRAM and MCBA accounts will accrue interest at the 90-day commercial paper rate.*

The net WRAM balance is allocated to all customers on the general metered³ rate schedule. The Settlement Section VI states:

- A. *For each ratemaking area in Region 1, except Clearlake, the WRAM will track the differences between the total quantity charge revenues authorized by the Commission ("Total Adopted Quantity Revenues") and the total revenues actually recovered through the quantity charge based on actual sales ("Total Actual Quantity Revenues"), excluding:*
1. *Fire service revenue;*
 2. *Unmetered Service revenue;*
 3. *Other non-general metered service revenue.*

Therefore, non-general metered⁴ and flat rate water services are excluded from the allocation of the net WRAM balance.

Per the Settlement section VII.C, the activation of MCBA will replace current supply cost balancing accounts. The Settlement Section VII. states:

- C. *An MCBA will replace each of the current balancing accounts, now referred to as Supply Cost Balancing Accounts.*
1. *GSWC currently has a Supply Cost Balancing Account for purchased water, purchased power, and pump taxes.*
 2. *The Supply Cost Balancing Account tracks cost changes attributable to changes in unit price, but not changes in the amount of consumption.*
 3. *MCBAs track changes in price and quantity.*

On April 30, 2012, the Commission issued Decision D.12-04-048, which amongst other things, changed the amortization period of the water revenue adjustment mechanism. D.12-04-48 ordering paragraph 3:

3. *We adopt the amortization schedule set forth in Appendix A with a cap on total net Water Revenue Adjustment Mechanism/Modified Cost Balancing Account (WRAM/MCBA) surcharges of 10% of the last authorized revenue requirement. The cap shall be effective the first test year of each applicant's pending or next General Rate Case, as follows:*
- Golden State and Park: Advice Letter filings on March 2014*
 - Cal Water: Advice Letter filings on March 2015*
 - Apple Valley: Advice Letter filing on March 2016*
- WRAM/MCBA account balances incurred prior to the first test year referenced above continue to be amortized under the adopted amortization schedule without being subject to surcharge cap.*

Decision D.12-04-048 also permits:

“applicants to include any under-amortized or over-amortized amounts from ongoing surcharges or surcredits in their annual Tier 1 Advice Letter submissions. Those ongoing surcharges or surcredits may run until the end of their originally intended amortization terms, provided that the ceiling on annual Advice Letter amortization, discussed earlier, is not exceeded.”⁵

In regards to under or over collections, Decision D.12-04-048 Conclusion of Law #7 states:

“It is reasonable to require that net WRAM&MCBA over collections be amortized through a surcredit on a customer's service charges and that all under collections be amortized through a surcharge on the volumetric rate.”⁶

In Santa Maria the net WRAM&MCBA balance is an over collection of \$495,699 or -3.3% of current adopted revenue. Pursuant to Decision D.12-04-084, the over collection should be refunded through a sur credit on a customer's service charge. However, the over collection of \$495,699 is a net balance of an over collection of \$861,729 in WRAM (and Schedule 14.1) and under collection of \$366,030 in MCBA. As stated above, WRAM does not apply to non-general meters. The general metered customers will receive a one-time sur credit to the service charge to amortize the net over

collection in WRAM&MCBA and the non-general⁷ metered customer will receive a 12-month surcharge in the volumetric rate to amortize the under collection in MCBA.

Request

The purpose of this filing is to refund an over collection in Bay Point of \$420,007 or -6.0%, \$572,857 or -3.9% in Simi Valley, \$495,699 or -3.3% in Santa Maria, and \$1,889,522 or -12.5% in Arden Cordova.

GSWC is requesting a one-time sur credit for Schedule No. AC-1, AC-2, BY-1-R, BY-1-NR, SM-1-R, SM-1-NR, SI-1-R, and SI-1-NR. The surcredit will be applied to the service charge pursuant to the directives for treating refunds in Water Division's Standard Practice U-27. Please refer to tariffs for surcredit amounts.

The 12-month temporary surcharge of \$0.128 per Ccf will be applied to Schedule SM-3-ML in Santa Maria to recover the under collection in MCBA.

Any over or under collection resulting from WRAM&MCBA surcharge or surcredit will be included in subsequent filings of the WRAM&MCBA.
