GSWC is seeking authorization from the California Public Utilities Commission (Commission) to increase the water rates in its Arden Cordova Customer Service Area (CSA) by \$147,659 or 1.0% to offset purveyor rate changes for purchased electricity, purchased gas and purchased water costs.

### Background

Electricity for the Arden Cordova CSA is purchased from Sacramento Municipal Water District (SMUD), purchased gas is obtained from Pacific Gas & Electric (PG&E) and purchased water is obtained from Carmichael Water District.

SMUD increased their electric rates on January 1, 2021. This resulted in an increase in GSWC's annual purchased electricity expense of \$63,389 above the amount currently reflected in GSWC's rates.

PG&E increased their gas rates on June 1, 2021. This resulted in an increase in GSWC's annual purchased gas expense of \$1,709 above the amount currently reflected in GSWC's rates.

Carmichael Water District purchased water expense has increased in 2021 resulting in an increase of \$80,750 above the amount currently reflected in GSWC's rates.

Revenues to cover the supply expense rate changes would also increase the uncollectible and franchise fees expenses by \$434 and \$1,378, respectively, above the amounts currently reflected in GSWC's rates.

An increase of \$147,659 or 1.0% is needed to offset the overall supply expense increase in Arden Cordova.

Copies of detailed workpapers supporting the proposed rate increase and rate calculations have been provided to the Commission Staff in accordance with Standard Practice U-27-W.

### Effective Date

This advice letter is submitted with a Tier 1 designation. GSWC is requesting this filing become effective July 1, 2021.

### Notice

This is a Tier 1 advice letter that does not require customer notification, as provided in Water Industry Rule 7.3.1 of General Order 96-B. GSWC will notify its customers of this rate increase by placing a message on the customer's water bills that are generated after the increase goes into effect. GSWC has attached a copy of its Customer Notice Verification with the drafted bill message language.

### Response or Protest

Anyone may submit a response or protest for this AL. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the Advice Letter (AL). A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

1. The utility did not properly serve or give notice of the AL;

2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

DWA must receive a response or protest via email (or postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

The addresses for submitting a response or protest are:

**Email Address:**

[Water.Division@cpuc.ca.gov](mailto:Water.Division@cpuc.ca.gov)

**Mailing Address:**

CA Public Utilities Commission  
Division of Water and Audits  
505 Van Ness Avenue  
San Francisco, CA 94102

On the same day the response or protest is submitted to DWA, the respondent or protestant shall send a copy of the protest to Golden State Water Company at:

**Email Address:**

[regulatoryaffairs@gswater.com](mailto:regulatoryaffairs@gswater.com)

**Mailing Address:**

Golden State Water Company  
Attn: Gladys Estrada  
630 East Foothill Blvd.  
San Dimas, CA 91773

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform DWA, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

**Replies**

The utility shall reply to each protest and may reply to any response. Any reply must be received by DWA within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL.

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

Sincerely,

/s/Gladys Estrada  
Regulatory Affairs Department

Schedule No. AC-1  
Arden-Cordova District  
General Metered Service

**SPECIAL CONDITIONS**

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. For the benefit of the customer, GSWC will delay the billing conversion from a flat rate to a metered rate for one billing cycle. After one billing cycle, GSWC will convert and bill the account at the applicable metered rate.
3. As authorized by Rule 9.1.e. for customers with more than one meter on a single service line, the customer's service charge rate is based on a factor multiplied by the service charge applicable to the nearest standard meter size of the combined meters as determined by the equivalent diameter methodology.
4. Non-residential Sprinkler rates can be added as needed utilizing the multiplication factors identified in Appendix F of Decision 16-12-067, applied to the 5/8" meter charge.
5. Pursuant to Decision 05-07-045, to recover the balance as of January 31, 2005 in the Water Quality Litigation Memorandum Account, a surcharge of \$0.296 per Ccf is to be added to the quantity rate for 20 years. The surcharge amount will be recalculated once in every rate cycle, or more frequently if in any year the receipt of Water Availability Fee (WAF) monies will permit a reduction of \$0.50 or more in the monthly bill under Tariff AC-2.
6. Pursuant to Decision No. 19-05-044 and Advice Letter No. 1842-W, a surcharge of \$0.095 per Ccf will be applied to all metered Customer bills excluding customers that are receiving the CAP credit. This surcharge will offset the CAP credits and CAP administrative program costs recorded in the CAP Balancing Account.
7. As authorized by the California Public Utilities Commission in D.19-05-044, an amount of \$0.069 per Ccf is to be added to the quantity rate for a period of 24-months, beginning on the effective date of Advice Letter No. 1782-W. This surcharge recovers the difference between the interim rates and final rates for the period of January 1, 2019 through June 7, 2019.
8. Beginning July 1, 2021, as required by Section 792.5 of the Public Utilities Code, an increase in purchased power of \$0.01258/kWh and \$0.11444/Therms and an increase in purchased water of \$0.03708/Ccf, relative to the Purchased Power and Purchased Water cost adopted by Decision No. 19-05-044, and an associated revenue increase of 1.0%, are being tracked in a reserve account.
