

PUBLIC UTILITIES COMMISSION

505 VAN NESS AVENUE
SAN FRANCISCO, CA 94102-3298

July 25, 2025

Ronald K. Moore
Regulatory Affairs Dept.
Golden State Water Company
630 East Foothill Blvd.
San Dimas, CA 91773

Dear Mr. Moore,

The Water Division of the California Public Utilities Commission has approved Golden State Water Company's Advice Letter No. 1967, filed on June 30, 2025, regarding authorization to update Rule 16 – Cross Connection language.

Enclosed are copies of the following revised tariff sheets, effective June 30, 2025, for the utility's files:

P.U.C.	
Sheet No.	Title of Sheet
9876-W	Rule No. 16, Service Connections, Meters, And Customer's Facilities, Page 8
9877-W	Rule No. 16, Service Connections, Meters, And Customer's Facilities, Page 10
9878-W	Table of Contents, Page 6
9879-W	Table of Contents, Page 1

Please contact Alex Pineda at Alex.Pineda@cpuc.ca.gov, if you have any questions.

Thank you.

Advice Letter No. 1967-W

(U 133 W)

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Golden State Water Company (GSWC) hereby transmits this Tier 1 Advice Letter (AL) requesting authority to update the following tariff sheets applicable to its water operations:

<u>CPUC Sheet No</u>	<u>Title of Sheet</u>	Canceling <u>CPUC Sheet No.</u>
Revised No. 9876-W	Rule No. 16 Service Connections, Meters, And Customer's Facilities, Page 8	Revised No. 9098-W
Revised No. 9877-W	Rule No. 16 Service Connections, Meters, And Customer's Facilities, Page 10	Revised No. 9100-W
Revised No. 9878-W	Table of Contents, Page 6	Revised No. 9751-W
Revised No. 9879-W	Table of Contents, Page 1	Revised No. 9875-W

GSWC is seeking authority to update its Rule No. 16 tariffs language related to Cross-Connections.

Background

Pursuant to sections 116407 and 116555.5 of the California Health and Safety Code (CHSC), on December 19, 2023, the State Water Board adopted standards for backflow protection and cross-connection control through the adoption of the Cross-Connection Control Policy Handbook (CCCPH), which became effective July 1, 2024. The CCCPH supersedes the following sections of California Code of Regulations: Title 17, Division 1, Chapter 5, Subchapter 1, Group 4, Articles 1 and 2, Sections 7583-7586 and 7601-7605 as they pertain to the control of Cross Connection.

Request

GSWC requests authorization to update the language in its Rule No. 16, Section C. Cross-Connections, to reflect changes¹ in the CCCPH.

¹ https://www.waterboards.ca.gov/drinking_water/certlic/drinkingwater/cccp.html

Effective Date

GSWC requests that this Tier 1 filing become effective on June 30, 2025.

Response or Protest

Anyone may respond to or protest this advice letter (AL). When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

1. The utility did not properly serve or give notice of the AL;
2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

A response or protest must be made in writing or by electronic mail and must be received by the Water Division (WD) within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

California Public Utilities Commission
Water Division
505 Van Ness Avenue
San Francisco, CA 94102
E-mail: Water.Division@cpuc.ca.gov

On the same day the response or protest is submitted to WD, the respondent or protestant shall send a copy by mail (or e-mail) to GSWC at the following address:

Golden State Water Company
Attn: Gladys Estrada
630 East Foothill Blvd.
San Dimas, CA 91773
E-mail: regulatoryaffairs@gswater.com

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform WD, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

Replies

The utility shall reply to each protest and may reply to any response. Any reply must be received by WD within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL. The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

No individuals or utilities have requested notification of filing of tariffs. Distribution of this advice letter is being made to the attached service list in accordance with General Order No. 96-B.

Sincerely,

/s/ Gladys Estrada

Rule No. 16Service Connections, Meters, And Customer's FacilitiesB. Services (Continued)

2. Size of Service Pipe

- a. The minimum size of service pipe installed by the utility will not be less than 3/4-inch nominal size.
- b. The utility may require the customer to provide such data as may be necessary for the utility properly to size a service larger than 3/4-inch nominal size consistent with pressure requirements.

3. Installation

Only duly authorized employees or agents of the utility (or contractors, upon approval of the utility) will be permitted to install a service pipe from the utility's main to the location of the service connection. The connection from the meter to the customer's piping will be made by the utility; provided, however, that if the customer's piping requires repair or replacement, the connection may, at the option of the utility, be made by the customer or his agent.

C. Cross-Connections

1. Protective Regulation

No physical connection between the potable water supply system of the public utility and that of any other water supply or source of actual or potential contamination will be permitted except in compliance with the regulations of the State Water Resources Control Board (SWRCB) contained in the Cross -Connection Control Policy Handbook (CCCPH), adopted December 19, 2023. (T)

2. Backflow Preventers Required

The utility will evaluate the degree of potential health hazard to the public water supply which may be created as a result of conditions existing on a user's premises. As a minimum, the evaluation will consider: the existence of cross-connections, the nature of materials handled on the property, user premises accessibility, previous backflow incidents on the user premises, the probability of a backflow occurring, the degree of piping system complexity and the potential for piping system modification. The utility may implement a Cross Connection Control Fee to administer the Cross-Connection Control Program as indicated on Schedule No. CCCF. (T)

President

(To be inserted by P.U.C.)

Date Filed June 30, 2025
Effective June 30, 2025
Resolution No. _____

Rule No. 16
Service Connections, Meters, And Customer's Facilities

C. Cross-Connections (continued)

3. Type and Expense of Backflow Preventers

Any backflow preventer utilized shall be of the type and design specified and approved for the circumstances described in the CCCPH, Article 3 - Backflow Prevention Assemblies, (T)
except that a customer may utilize an approved backflow preventer providing greater protection than required. Such backflow preventers shall be installed by and at the expense (T)
of the customer, in a manner approved by the utility and the public health agency having jurisdiction. Following the compliance date, the utility may have a backflow prevention (T)
assembly installed. The cost of the installation will be borne by the customer, and the utility (T)
may add such cost to the customer's water bill. Backflow preventers shall be installed as (T)
close as practical to the customer's connection to the utility and in a location which is readily available for periodic inspection.

Backflow preventers shall be installed, tested, repaired or replaced at the expense of the (T)
customer.

4. Periodic Testing of Backflow Preventers

Whenever a backflow preventer is installed permanently, relocated, depressurized for (T)
winterizing, or repaired the customer shall have it tested by persons with valid certification
from a certifying organization recognized by the State Water Board as described in Article 4 of
the CCCPH. Backflow preventers shall be tested at least annually or more frequently if (T)
determined to be necessary by the health agency or utility. The utility shall notify the
customer when testing of backflow preventers is needed. The notice shall also inform the
customer that, following the compliance date, the utility may have all untested assemblies
tested and, if needed, repaired or replaced. The costs of all testing, repair, or replacement will
be borne by the customer, and the utility may add such costs to the customer's water bill. In
tenant-landlord situations, the utility shall not be responsible for determining the responsible
party beyond notification of the customer of record. The notice shall give the date when the
test must be completed. Reports of testing and maintenance shall be maintained by the utility
for a minimum of three years.

Whenever a backflow prevention assembly is found to have failed, it must be repaired or
replaced as soon as repair parts or a replacement assembly is available, but in no event
later than the testing compliance date, or 20 days after testing, whichever comes first. If the
assembly cannot or will not be repaired within 3 days of discovery of the failure, the
backflow prevention assembly tester must notify the utility of the failure. In cases where the
failed assembly presents an immediate risk to public health, the service will be discontinued
until the repairs or replacement is completed.
