**Advice Letter No. 1969-W**

**(U 133 W)**

## **TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

This advice letter filing is being made to request the transfer of funds, explained in the Background section of this advice letter, to Orange County Water District (OCWD) to cover the cost of the PFAS remediation to GSWC facilities, per the PFAS Facilities and Program Agreement (PFAS PA).

### **Background**

On April 8, 2021, GSWC executed the PFAS Facilities and Program Agreement (PFAS PA) with Orange County Water District (OCWD), the agency responsible for managing the groundwater basin underlying north and central Orange County (OC Basin). There are currently fifteen (15) major groundwater producers (Producers), including GSWC, together with OCWD, that are Parties to the PFAS PA.

The PFAS PA establishes the responsibility of the Parties and sets terms and conditions for OCWD to take the lead in mitigating PFAS contamination in the OC Basin. It provides the basis for OCWD to fund the planning, design, and construction of PFAS treatment facilities (PFAS Facilities), and to reimburse fifty percent (50%) of the ongoing operation and maintenance costs (O&M) for these PFAS Facilities at groundwater production plant sites owned and operated by the Producers.

OCWD is funding PFAS Facilities through grants, short-term and long-term financing, low interest loans, and with funds recovered through PFAS lawsuits filed on behalf of the Producers and OCWD. The debt financing used for construction and operation of the PFAS Facilities in the OC Basin is serviced through incremental increases in the annual Replenishment Assessment (RA) and Additional Replenishment Assessment (ARA), collected by OCWD from its Producers over time. These charges are passed on to the Producers' customers through their respective water rates.

The PFAS PA establishes terms, conditions and expectations for OCWD and the Producers to collaborate in seeking grants and in filing lawsuits against the parties responsible for PFAS contamination in the OC Basin. It further establishes expectations for the Parties to pool

funds recovered by PFAS lawsuits to pay down the primary capital costs and ongoing O&M expenses for the PFAS Facilities funded by OCWD through the 30-year term of the PFAS PA.

Participation in the PFAS PA provides GSWC customers with a significant benefit in that the cost of alternative water supplies, i.e. treated import water, is significantly more expensive than treated groundwater supplies. In addition, if less groundwater is produced across the OC Basin due to PFAS contamination, groundwater rates would rise significantly to cover OCWD's fixed costs in protecting the basin water quality and sustainable yield. If GSWC financed PFAS projects in its OC District outside of the PFAS PA, its customers would still pay for the OCWD PFAS Program through the increased RA and ARA, and they would pay for GSWC's investment in PFAS Treatment through the rate base, effectively paying twice for PFAS Treatment Facilities.

GSWC currently operates two PFAS Facilities in its Orange County District that were funded through the OCWD PFAS PA, with contributed assets of over \$4.2M. OCWD has received bids to construct a third PFAS Facility in GSWC's OC District, valued at approximately \$3.1M. OCWD is currently preparing plans and specifications for construction of PFAS Treatment Facilities at five additional GSWC plant sites in Orange County, estimated at nearly \$20M.

In August 2025, GSWC received its first settlement payment from one of the major defendants of a Multidistrict Litigation (MDL) against PFAS manufacturers. This payment included approximately \$1.1M in settlement funds for GSWC groundwater wells within the OC Basin contaminated by PFAS compounds. The MDL settlement with this defendant allows payments to be made over a period of nine years. During this nine-year period, GSWC expects to receive and forward to OCWD approximately \$5.5M in litigation recovery funds from this defendant.

In accordance with the terms, conditions and obligations established by the PFAS PA, GSWC will forward to OCWD, the settlement funds associated with PFAS-affected wells in the OC District. These funds will be pooled with settlement funds from other Producers and distributed by OCWD across the Parties, in accordance with the terms and conditions established by the PFAS PA, its addenda, and any other associated agreements executed by the Parties. The bulk of these pooled settlement funds will pay down the cost of the PFAS Facilities capital investment from OCWD and thereby reduce the amount needed for repayment and financing through increases in the RA and ARA.

**Request**

Pursuant to D.21-04-004, Ordering Paragraph 4<sup>1</sup>, GSWC requests to transfer litigation settlement proceeds from the PFAS Contamination Litigation Proceeds Memorandum Account received from defendants of a Multidistrict Litigation (MDL) against PFAS manufacturers, for groundwater wells within the OC Basin that are contaminated by PFAS compounds. The transfer of these funds to OCWD will partially offset the cost of remediation under the PFAS Treatment Facilities Program mentioned above.

GSWC is currently operating PFAS Facilities funded by the OCWD PFAS PA at two of its plant sites in the Orange County District.

The settlement proceeds will partially offset OCWD's cost to install and operate needed PFAS treatment facilities that would have normally been funded by GSWC ratepayers.

As additional PFAS settlement payments are received by GSWC for wells affected by PFAS contaminants in the OC Basin, GSWC will continue to transfer the settlement funds to OCWD in exchange for the contributed PFAS Facilities completed at GSWC Plant sites in its OC District through the PFAS PA. The estimated settlement payments for GSWC wells in the OC Basin total \$5.5M from the largest defendant. The estimated OCWD investment in PFAS Water Treatment Facilities at GSWC's OC District plant sites is \$27.3M.

GSWC requests the authority to file a Tier 1 advice letter, instead of a Tier 3, based on the final resolution granted by this advice letter request for any future settlement payments to OCWD under the PFAS PA. This will expedite the payment transfers to OCWD for well remediation of PFAS contaminants.
