PURPOSE

This advice letter submittal seeks to implement Escalation Year 2026 water rates, as authorized by the California Public Utilities Commission ("Commission"), for the Northern Consolidated CSAs. GSWC's request is pursuant to Decision No. ("D.") 25-01-036, dated January 30, 2025 for General Rate Case Application No. 23-08-010.

Specifically, Ordering Paragraph No. 12 of the Decision states,

12. For escalation year 2026 and 2027, Golden State Water Company shall file Tier 1 advice letters, in conformance with General Order 96-B and the Revised Water Rate Case Plan (Decision 07-05-062), proposing new revenue requirements and corresponding revised tariff schedules in each rate Arden-Cordova and rate area in this proceeding, and in conformance with the Settlement Agreement and adopted estimated rates for each rate area as illustrated in the attached Appendices. This filing shall be subject to approval by the Commission's Water Division.

RATE OF RETURN

The following summary lists the Recorded, Authorized, Adjusted Authorized, and Pro-forma rates of return in GSWC's Northern Consolidated CSAs for twelve months ending September 2025. The pro forma rate of return is calculated in accordance with guidelines provided by the Water Division.

Recorded	7.01%
Authorized	7.93%
Adjusted Authorized	7.95%
Pro forma	6.51%

As shown above, the Pro-forma return is less than the Authorized rate of return. As such, no earnings adjustment is required for the proposed 2026 water rate increase.

Detailed workpapers supporting the proposed rate increase and rate calculations are being supplied to the Commission Staff.

ADVICE LETTER PROJECTS

The Parties to the Settlement Agreement adopted in D.25-01-036 agreed to 75 capital projects that GSWC may treat as Advice Letter Projects totaling \$75,887,649 for costs incurred after December 31, 2022.¹ The 2023 GRC Capital Memorandum Account tracks accrued interest during the construction period for each Advice Letter Project at GSWC's adopted cost of debt until the assets are in service, and the full rate of return and applicable components of revenue requirement, such as depreciation and property taxes, for each project from the period the assets are in service to the date GSWC files its attrition year filings for 2026 and 2027. As authorized, when GSWC files its 2026 and 2027 attrition filings, the completed assets and the associated amounts recorded in the 2023 GRC Capital Memorandum Account shall be added to the adopted rate base, subject to Commission confirmation that the amounts were appropriately recorded in the 2023 GRC Capital Memorandum Account.

The Preliminary Statement for the 2023 GRC Capital Memorandum Account was approved in GSWC's Advice Letter No. 1957-W, pursuant to D. 25-01-036.

For the Northern Consolidated CSAs, GSWC is adding \$1,505,179 to rate base for the cost of the two completed Advice Letter Projects and \$204,972 for the associated balance in the 2023 GRC Capital Memorandum Account, which results in an addition to rate base of 1,678,218 after adjustments for accumulated depreciation.

COMPLIANCE

GSWC is filing this Tier 1 advice letter to implement rates for Escalation Year 2026. GSWC is authorized to increase rates in its Northern Consolidated CSAs by \$1,910,913 or 8.0%.

GSWC has computed the 2026 Escalation Year using the escalation methodology set forth in the Revised Rate Case Plan, the escalation factors as of October 2025, as published by the Public Advocates Office Water Branch, and the September 2025 CPI-U plus the addition of the advice letter projects authorized in D.25-01-036, as described above.

Note: GSWC is only revising the Special Condition section on the Clearlake tariffs, there are no tariff changes to the Quantity rates or the Service Charges.

EFFECTIVE DATE

As directed, the effective date of these revised tariffs shall be January 1, 2026.

¹ D.25-01-036 (Appendix A-Settlement Agreement, Section 3.2) at pp. 23-25

Customer Notice: This is a Tier 1 advice letter that does not require customer notification, as provided in Water Industry Rule 7.3.1 of General Order 96-B. GSWC will include a bill message on each customer's first bill after the increase goes into effect to inform its Northern Consolidated CSAs customers of this rate increase.

6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

The Water Division must receive a response or protest via email (or postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**
