

February 17, 2026

Advice Letter No. 1992-W

(U 133 W)

To the California Public Utilities Commission:

Golden State Water Company (GSWC) hereby transmits the attached tariff sheets applicable to its ratemaking service areas.

<u>CPUC Sheet No</u>	<u>Title of Sheet</u>	<u>Canceling CPUC Sheet No.</u>
	See Attachment 1	

These tariffs are submitted pursuant to General Order No. 96-B. Pursuant to General Order No. 96-B Water Industry Rule 7.3.2.(4), this advice letter is designated as a Tier 2 Advice Letter.

Purpose

GSWC is seeking authority to establish Schedule No. CM, Construction And Temporary Metered Service and add Form No. 5 Application And Permit For Use of Water From Fire Hydrant to its Sample Forms.

Discussion

The State Water Board is required to adopt regulations for Cross-Connection Control Policy Handbook that it determines to be necessary for ensuring Public Water Systems (PWS) distribute a reliable and adequate supply of pure, wholesome, potable, and healthy water.

Pursuant to sections 116407 and 116555.5 of the California Health and Safety Code (CHSC), the State Water Board adopted standards for backflow protection and cross-connection control through the adoption of the Cross-Connection Control Policy Handbook (CCCPH), which became effective July 1, 2024. The CCCPH supersedes section of California Code of Regulations: Title 17, Division 1, Chapter 5, Subchapter 1, Group 4, Articles 1 and 2, Sections 7583-7586 and 7601-7605.

Backflow Protection Requirement

A PWS is required to ensure that the distribution system will not be subject to backflow under normal operating conditions and protected from backflow from identified hazards through the proper installation, continued operation, and field testing of an approved Backflow Prevention Assembly (BPA).

The PWS must ensure that actual and potential cross-connections are eliminated when possible or controlled by the installation of approved BPAs or Air-gap separation (AG) to protect from any hazards¹ (see Appendix D), through premises containment, through the use of an AG or Reduce pressure principle backflow prevention assembly (RP).

GSWC is required to comply with the updated requirements of the CCCPH to include a BPA for temporary connections to fire hydrants for miscellaneous uses, including construction meters.

GSWC requests the approval of Schedule No. CM to be used when customers request temporary service for construction and temporary activities within the utilities service areas.

Additionally, GSWC request to add Form No. 5, Application And Permit For Use of Water From Fire Hydrant to its Sample Forms.

Effective Date

GSWC is requesting that this filing become effective on March 19, 2026.

Response or Protest

Anyone may submit a response or protest for this Advice Letter (AL). When submitting a response or protest, please include the utility name and advice letter number in the subject line.

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the AL. A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

1. The utility did not properly serve or give notice of the AL;
2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

¹ [Cross-Connection Control Policy Handbook](#); Appendix D, p.D-2

WD must receive a response or protest via email (or postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.** The addresses for submitting a response or protest is:

California Public Utilities Commission
Water Division
505 Van Ness Avenue
San Francisco, CA 94102

E-mail: Water.Division@cpuc.ca.gov

On the same day the response or protest is submitted to WD, the respondent or protestant shall send a copy of the protest to Golden State Water Company, addressed to:

Golden State Water Company
Attn: Regulatory Affairs Department
630 East Foothill Blvd., San Dimas, CA 91773

E-mail: regulatoryaffairs@gswater.com

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform DWA, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

Replies

The utility shall reply to each protest and may reply to any response. Any reply must be received by WD within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL.

The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

No individuals or utilities have requested notification of filing of tariffs. Distribution of this advice letter is being made to the attached service list in accordance with General Order No. 96-B.

Sincerely,

/s/ Gladys Estrada

AGREEMENT AND REQUIREMENTS FOR USE – UNLOCKED HYDRANT METERS

Please initial to acknowledge understanding of the following requirements.

- A \$1,200.00 deposit, pre-paid in advance, is required for hydrant meter service. **(Please note: Meter will not be released until deposit is received)**
- A monthly service charge equivalent to a 3-inch meter for the tariff area within which the water is delivered, plus charges for the metered quantity rate applicable to the tariff area within which the water is delivered, will be applied throughout the term of use.
- The rental is subject to all applicable rules and schedules filed with the California Public Utilities Commission.
- Rental of the hydrant meter shall not exceed 12 months.
- **Moving the meter from one hydrant to another is not permitted, except with prior GSWC approval and purpose of use. Failure to comply with this requirement will result in a forfeiture of the deposit.**
- It is solely your responsibility to secure the meter and prevent theft, loss, or damage.
- Use only a proper hydrant wrench to operate the hydrant.
- When using the hydrant, slowly open and close to prevent water hammer.
- **If meter is lost or broken, the deposit will be retained and another \$1,200.00 deposit collected for a replacement meter.**
- No part of the installation shall protrude into traffic or post a safety hazard to pedestrians or vehicles. If necessary, safety warning devices must be in place.
- Meter is subject to removal if bill payment is not received by indicated due date.
- For monthly billing purposes, it is required to send a picture of the meter read to email address CSG@gswater.com before the 10th day of each month. Customers that do not email the meter reading by the 10th of each month will be charged for 100 CCF of use.
- Once finished with the meter, contact our 24-Hour Customer Service at (800) 999-4033 or email CSG@gswater.com to arrange return of the meter.

AGREEMENT AND BACKFLOW REQUIREMENTS – UNLOCKED HYDRANT METERS

Please initial to acknowledge understanding of the following requirements.

Backflow Requirements

- Drawing water from any fire hydrant without the use of a meter and proper backflow protection is prohibited.
- The state of California requires that hydrant meters, at all times, have adequate backflow protection in place. The customer will be responsible for the provision of adequate backflow preventive measures at the service connection. Installing a reduced pressure principle (RP) backflow immediately downstream of the hydrant meter is considered adequate backflow protection. The RP type backflow used needs to be listed in USC's List of Approved Backflow Prevention Assemblies. Where applicable, the establishment of an air gap for backflow prevention may be acceptable in lieu of the RP backflow, subject to approval by GSWC.
- The backflow prevention assembly (BPA) will need to be tested by a backflow tester that is certified by a State Water Board-recognized organization. Testing of the BPA is the responsibility of the customer. The backflow must be tested within 5 days of the hydrant meter being released to the customer, and quarterly thereafter. Failure to test the backflow within 5 days of hydrant meter being set will result in termination of water service. If air gapping the connection, pictures of the air gap setup will need to be emailed to backflowtest@gswater.com within 5 days of the hydrant meter being released.
- The backflow company that will be used to satisfy the initial backflow testing requirement is:

Schedule No. CM
All Districts
Construction And Temporary Metered Service

APPLICABILITY

Applicable to all temporary water service furnished for customers engaged in construction and temporary activities within the utility service area. Note that construction meters may also be referred to as hydrant meters.

TERRITORY

This schedule is applicable within the entire area served by the utility.

RATES

Monthly quantity rates and service charge listed in applicable Non-residential Metered Service will apply to service furnished under this schedule. Monthly quantity rates and service charge listed in applicable General Metered Service will apply in case Non-residential Meter Service Schedule does not exist. A minimum of one month service charge will apply.

SPECIAL CONDITIONS

1. Where it is necessary to obtain a temporary or construction meter, the customer will be required to sign an agreement and deposit \$1,200 for a construction meter.
2. If hardware is lost, stolen, damaged beyond normal wear and tear, or relocated without utility approval, the customer will forfeit the entire deposit. The deposit less the cost of any repairs, other than those due to normal usage as determined by the utility, will be returned to the customer after termination of the service for which the meter was obtained.
3. If utility requires customer to call or email the meter reading, it is the customer's responsibility to do so by the 10th of each month. Customers that do not call or email the meter reading by the 10th of each month will be charged for 100 CCF of use.
4. In the event of failure to provide a meter read for a period of:
 - Two months, meter may be removed and permit revoked (if utility is unable to contact customer).
 - Three months, the meter will be considered abandoned, deposit forfeited, and the account closed. Any use of the meter by the customer after the account is closed is considered theft.
5. Meter can only be used in locations approved by the utility and meter cannot be relocated without utility approval.
6. Once water passes through meter it is no longer potable.

Effective _____
Resolution No. _____

Schedule No. CM
All Districts
Construction And Temporary Metered Service

SPECIAL CONDITIONS

7. Water taken from a utility hydrant may not be transported out of the utility's designated service area unless authorized by the utility in writing.
8. Meter must be inspected and tested annually by utility. Customer is responsible for cooperating with the inspection and testing appointment.
9. It is the customer's duty to provide backflow prevention assembly (BPA) associated with all construction and temporary metered service(s) without an airgap.
10. The BPA must be tested according to requirements set forth by the Division of Drinking Water by a backflow tester certified by a State Water Board-recognized organization. Testing of the BPA is the responsibility of the customer. The customer is responsible for ensuring that the required testing is completed.
11. Utility will require customer to apply for a permanent service to obtain potable water to a premise. This tariff gives customer no implied rights for obtaining building permits and permanent extensions to serve customers are to be made under Rule 15 and Rule 16.
12. Meter is not to be used for fire protection such as fire sprinkler or on-site fire hydrants. This tariff does not imply that any fire protection standards required by local or state authorities are met.
13. It is the customer's duty to notify the local fire protection agency of any connection to a fire hydrant and to disclose the intended use of water.
14. Failure of a customer to use proper spanner wrenches on the utility's fire hydrant operating nut, or any damage to the water distribution system by the customer, can result in the immediate termination of service and use of the meter. The costs for making repairs to the damaged facilities shall be borne by the customer.
15. Persons found using water from a utility hydrant location without the use of proper metering equipment will receive a warning letter and citation. A second citation may result in the suspension of all hydrant use permits issued to that customer for a period of six months. Additionally, copies of the citations will be sent to the local law enforcement authorities and the fire department will be notified that all hydrant use permits have been revoked.
16. Water used without a meter is water theft and customer will be held accountable in accordance with California Penal Code 498.
