**Advice Letter No. 1998-W**

**(U 133 W)**

**To the California Public Utilities Commission:**

Golden State Water Company (GSWC) hereby transmits the attached tariff sheets applicable to its ratemaking service areas.

<u>CPUC Sheet No</u>	<u>Title of Sheet</u>	<u>Canceling CPUC Sheet No.</u>
	See Attachment 1	

These tariffs are submitted pursuant to General Order No. 96-B. Pursuant to General Order No. 96-B Water Industry Rule 7.3.2.(4), this advice letter is designated as a Tier 1 Advice Letter.

**Purpose**

GSWC is seeking authorization from the California Public Utilities Commission (Commission) to decrease the water rates in its Bay Point CSA by \$201,759 or -2.27% to offset purveyor rate changes for purchased water and purchased power costs.

**Background**

GSWC purchases water from the Contra Costa Water District (CCWD). On November 20, 2025, GSWC filed AL 1985-W to implement a supply offset and increase rates, effective January 1, 2026. Recently, CCWD has updated their water rates resulting in a net decrease in purchase water supply expenses of \$197,726.

Revenues to cover the supply expense rate changes would also decrease the uncollectible and franchise fees expenses by \$1,727 and \$2,305, respectively, above the amounts currently reflected in GSWC's rates.

Copies of detailed workpapers supporting the proposed rate increase and rate calculations have been provided to the Commission Staff in accordance with Standard Practice U-27-W.

**Effective Date**

GSWC is requesting this filing become effective July 1, 2026.

**Notice**

No individuals or utilities have requested notification of filing of tariffs. Distribution of this advice letter is being made to the attached service list in accordance with Section 4.3 of General Order No. 96-B.

GSWC will notify its customers of this rate decrease by placing a message on the customer's water bills that are generated after the decrease goes into effect.

### **Response or Protest**

Anyone may submit a response or protest for this Advice Letter (AL). When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the AL. A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

1. The utility did not properly serve or give notice of the AL;
2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

WD must receive a response or protest via email (**or** postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.** The addresses for submitting a response or protest is:

California Public Utilities Commission  
Water Division  
505 Van Ness Avenue, San Francisco, CA 94102  
**E-mail:** [Water.Division@cpuc.ca.gov](mailto:Water.Division@cpuc.ca.gov)

On the same day the response or protest is submitted to WD, the respondent or protestant shall send a copy of the protest to Golden State Water Company, addressed to:

Golden State Water Company  
630 East Foothill Blvd., San Dimas, CA 91773

E-mail: [regulatoryaffairs@gswater.com](mailto:regulatoryaffairs@gswater.com)

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform WD, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

### **Replies**

The utility shall reply to each protest and may reply to any response. Any reply must be received by WD within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL.

The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

No individuals or utilities have requested notification of filing of tariffs. Distribution of this advice letter is being made to the attached service list in accordance with General Order No. 96-B.

Sincerely,

*/s/ Gladys Estrada*

Non-Residential Metered Service

**SPECIAL CONDITIONS**

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. New Services: Contra Costa Water District (CCWD) imposes a Facilities Reserve Charge for new or enlarged Retail services in this district. An applicant for service must first pay this fee, if applicable, to CCWD before service will be rendered under this schedule.
3. As authorized by the California Public Utilities Commission, a surcharge of \$0.166 per Ccf will be applied to all metered customer bills excluding customers that are receiving the CAP credit. This surcharge will offset the CAP credits and CAP administrative program costs recorded in the CAP Balancing Account.
4. As authorized by Rule 9.1.e. for customers with more than one meter on a single service line, the customer's service charge rate is based on a factor multiplied by the service charge applicable to the nearest standard meter size of the combined meters as determined by the equivalent diameter methodology.
5. Non-residential Sprinkler rates can be added as needed utilizing the multiplication factors identified in Appendix F of D. 17-03-001, applied to the 5/8" meter charge.
6. As authorized by the California Public Utilities Commission in D.23-06-024, an amount of \$0.565 per Ccf is to be added to the quantity rate for a period of 36-months, beginning on October 10, 2023. The surcharge recovers the difference between the interim rates and the final rates for the period of January 1, 2022 through July 30, 2023. (D)
7. Beginning July1, 2026, as required by Section 792.5 of the Public Utilities Code, a decrease in purchased water of \$0.2540/Ccf relative to the purchased water cost adopted by Decision No. 25-01-036 and an associated revenue decrease of -2.27%, are being tracked in a reserve account. (C)  
(C)  
(C)
8. As authorized by the California Public Utilities Commission, an amount of \$0.0011 per Ccf is to be added to the quantity rate for a period of 12-months, beginning on April 3, 2026. The surcharge recovers the balance in the M-WRAM and ICBA.
