Advice Letter No. 2012-W **(U 133 W)**

To the California Public Utilities Commission:

Golden State Water Company (GSWC) hereby transmits the attached tariff sheets applicable to its Arden Cordova and Clearlake Northern Consolidated Service areas.

CPUC Sheet No	Title of Sheet	Canceling CPUC Sheet No.
	See Attachment 1	

These tariffs are submitted pursuant to General Order No. 96-B. Pursuant to General Order No. 96-B Water Industry Rule 7.3.2.(4), this advice letter is designated as a Tier 1 Advice Letter.

Purpose

This advice letter requests approval of the rate adjustment as a result of the Sales Reconciliation Mechanism (SRM) in the Northern Consolidated-Arden Cordova and Clearlake CSAs in accordance with the SRM guidelines previously adopted[1].

Discussion

The California Public Utilities Commission (Commission) issued D.25-01-036, adopting the following Ordering Paragraphs No. 7 and 8, state the following:

> *7. Golden State Water Company shall continue its use of the Sales Reconciliation Mechanism with the modifications adopted herein and shall include, at minimum, the following information on the performance of the SRM in its next GRC filing:*
>
> > *a. The number of times the SRM was triggered, the forecasted and consumption values at the time it was triggered (and by extension the difference between the two)*
> > *b. The customer impacts that could be attributed to the triggering of the SRM (how did usage and consumption change as a result, did rates increase or decrease as a result of each instance of the triggering of the SRM)*

---

[1] D. 19-05-044, D. 23-06-024 and D.25-01-036

c. Any other information the utility finds pertinent in relation to the performance of the SRM in tandem with the M-WRAM

8. Golden State Water Company's use of its sales reconciliation mechanism shall incorporate the following changes, in addition to what is discussed in OP 7:

(1) (i) the adjustment will be made to all adopted sales forecasts in a ratemaking area if the trigger is met (rather than being limited to sales associated with decoupled rate tariffs); (2) the SRM will not adjust sales upward if mandated drought reductions are in effect such that Schedule 14.1 is active in the ratemaking area; and (3) Golden State should be allowed to file the SRM on an annual basis instead of their requested bi-annual basis.

In Decision No. 25-01-036, GSWC was granted authority to continue to implement a Sales Reconciliation Mechanism (SRM) that provides for a rate adjustment in Years 2 and 3 if the actual sales volume for a ratemaking area is lower or higher than five percent of the adopted value for that ratemaking area.

In this advice letter, GSWC is requesting approval to implement new rates that are consistent with the above Ordering Paragraphs of D. 25-01-036 that adopts the continued SRM rate adjustment.

SRM Adjustment
When actual sales vary from adopted sales by more than 5%, the SRM is triggered, and rates are recalculated that reflect the changes described in the next paragraph. The SRM was triggered in the Northern Consolidated- Arden Cordova and Clearlake service area. GSWC compared the recorded sales for the period of October 2025 through September 2026 with the sales for 2026 adopted in D.25-01-036. The recorded sales were 6.6% lower than adopted sales, therefore, the SRM is triggered and GSWC is authorized to decrease its annual sales per customer for 2027 by 50% of the recorded sales variation, which is 3.3%. This changed resulted in a revised revenue requirement solely to flowthrough the change to production-related expenses associated with the sales forecast change, and calculate 2027 rates based on the adjusted sales.

To calculate rates for 2027 in accordance with the SRM, sales are first adjusted to reflect one-half of the total variation from adopted sales. Second, for the purposes of the SRM adjustment, a revised revenue requirement is calculated that incorporates the change in purchased water ,power supply, pump taxes and chemical costs caused by having a change in adopted sales and production volumes.

The table below shows the Northern Consolidated Arden Cordova and Clearlake's revenue requirement with the adopted 2026 escalation, the SRM adjustment, and the new adopted revenue requirement.

CSA	2027 Adopted Revenues ($000)	SRM Adj. ($000)	2027 Adopted Revenues with SRM ($000)	Change
Northern Consolidated-Arden Cordova and Clearlake	$27,845.3	-$40.0	$27,805.3	-0.14%

The revised Adopted Supply Expense and Adopted Quantities for the Northern Consolidated districts are attached to this advice letter as **Attachment A** and **Attachment B**, respectively.

Effective Date

GSWC is filing this Tier 1, stand-alone SRM advice letter, on the same date as the escalation review filing for the Northern Consolidated - Arden Cordova and Clearlake service areas, both filings will have the same effective date of January 1, 2027.

Notice

No individuals or utilities have requested notification of filing of tariffs. Distribution of this advice letter is being made to the attached service list in accordance with Section 4.3 of General Order No. 96-B.

GSWC will include a bill message on each customer's bill after the increase goes into effect to inform its Northern Consolidated-Arden Cordova and Clearlake customers of this rate change.

Service List

In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be transmitted **electronically** to competing and adjacent utilities and other utilities or interested parties having requested such notification. **Please note that this advice letter is only being distributed electronically.**

Response or Protest

Anyone may respond to or protest this advice letter (AL). When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

1. The utility did not properly serve or give notice of the AL;

2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

A response or protest must be made in writing or by electronic mail and must be received by the Water Division (WD) within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:
California Public Utilities Commission, Water Division
505 Van Ness Avenue
San Francisco, CA 94102

E-mail: Water.Division@cpuc.ca.gov
On the same day the response or protest is submitted to WD, the respondent or protestant shall send a copy by mail (or e-mail) to GSWC at the following address:

Golden State Water Company
Attn: Regulatory Affairs Department
630 East Foothill Blvd., San Dimas, CA 91773
E-mail: regulatoryaffairs@gswater.com

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform WD, within the 20-day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

Replies
The utility shall reply to each protest and may reply to any response. Any reply must be received by WD within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL.

The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

Sincerely,

/s/ Kris Oey
Kris Oey
Sr. Regulatory Analyst
