Advice Letter No. 2013-W **(U 133 W)**

To the California Public Utilities Commission:

Golden State Water Company (GSWC) hereby transmits the attached tariff sheets applicable to its Northern Consolidated – Arden Cordova and Clearlake Customer Service Areas (CSAs).

CPUC Sheet No	Title of Sheet	Canceling CPUC Sheet No.
	See Attachment 1	

These tariffs are submitted pursuant to General Order No. 96-B. Pursuant to General Order No. 96-B Water Industry Rule 7.3.2.(4), this advice letter is designated as a Tier 1 Advice Letter.

Purpose

GSWC is seeking authorization from the California Public Utilities Commission (Commission) to increase the water rates in its Northern Consolidated Ratemaking Area (Northern Consolidated) by $339,570 or 1.22% to offset purveyor rate changes for purchased power, pump tax and purchased water costs.

Discussion

Purchase power for the Northern Consolidated RMA is purchased from Sacramento Municipal Water District (SMUD) and Pacific Gas & electric (PG&E), purchased water is obtained from Carmichael Water District (CWD) and Yolo County Flood Control, and pump tax is paid to the Sacramento Central Ground Water Authority (SGA).

GSWC purchases power from PG&E and SMUD for its Clearlake CSA and Arden Cordova CSA respectively. PG&E's rates have changed as of June 1, 2026 and SMUD will have an upcoming rate change on January 1, 2027. This will result in an increase in GSWC's annual purchased power expense of $94,046 above the amount currently reflected in GSWC's rates.

CWD purchased water expenses have increased resulting in an increase of $218,650 above the amount currently reflected in GSWC's rates.

GSWC pays annual groundwater pump tax fees to the SGA for water pumped. SGA has increased the pumping tax rates which resulted in an increase in annual pump tax expense of $21,594 above the amount currently reflected in GSWC's rates.

Revenues to cover the supply expense rate changes would also increase the uncollectible and franchise fees expenses by $1,305 and $3,974, respectively, above the amounts currently reflected in GSWC's rates.

As shown in the workpapers, an increase of $339,570 or 1.22% to Adopted Gross Revenue is needed to offset the net supply costs increase in overall supply expense in the Northern Consolidated[1].

Copies of detailed workpapers supporting the proposed rate increase and rate calculations have been provided to the Commission Staff in accordance with Standard Practice U-27-W.

Effective Date

This is a Tier 1 advice letter. GSWC is requesting this filing become effective January 1, 2027.

Notice

No individuals or utilities have requested notification of filing of tariffs. Distribution of this advice letter is being made to the attached service list in accordance with Section 4.3 of General Order No. 96-B.

GSWC will notify its customers of this rate increase by placing a message on the customers' water bills that are generated after the increase goes into effect.

Service List

In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be transmitted **electronically** to competing and adjacent utilities and other utilities or interested parties having requested such notification. **Please note that this advice letter is only being distributed electronically.**

Response or Protest

Anyone may submit a response or protest for this Advice Letter (AL). When submitting a response or protest, please include the utility name and advice letter number in the subject line.

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the AL. A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

1. The utility did not properly serve or give notice of the AL;
2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or

---

[1] D. 25-01-036, Sec. 3.12, Sp. Request 5, Sec. 3.12 rates in the Clearlake CSA are frozen and will not change. Only Arden Cordova CSA rates will change.

5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

Water Division (WD) must receive a response or protest via email (**or** postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, please include the utility name and advice letter number in the subject line. The addresses for submitting a response or protest is:

California Public Utilities Commission
Water Division
505 Van Ness Avenue
San Francisco, CA 94102
E-mail: Water.Division@cpuc.ca.gov

On the same day the response or protest is submitted to WD, the respondent or protestant shall send a copy of the protest to Golden State Water Company, addressed to:

Golden State Water Company
Attn: Regulatory Affairs Department
630 East Foothill Blvd., San Dimas, CA 91773
E-mail: regulatoryaffairs@gswater.com

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform DWA, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

Replies
The utility shall reply to each protest and may reply to any response. Any reply must be received by WD within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL.

The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

Sincerely,

/s/ *Gladys Estrada*

Non-Residential Metered Service

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

2. As authorized by Rule 9.1.e. for customers with more than one meter on a single service line, the customer's service charge rate is based on a factor multiplied by the service charge applicable to the nearest standard meter size of the combined meters as determined by the equivalent diameter methodology.

3. Non-residential Sprinkler rates can be added as needed utilizing the multiplication factors identified in Appendix F of Decision No. 16-12-067, applied to the 5/8" meter charge.

4. As authorized by the California Public Utilities Commission, a surcharge will be applied to customer bills for the remainder of a 20-year loan obligation that began in March 2013 to repay a $8.6 million loan Golden State Water Company received under the Safe Drinking Water State Revolving Fund and the American Recovery and Reinvestment Act of 2009 from the California Department of Public Health to fund the Meter Installation and Retrofit Program in the Arden-Cordova District, pursuant to Commission Resolution No. W-4810. The surcharge below was recalibrated and went into effect on November 11, 2018. (L)
