

CONSTRUCTION NOTICE

Installation of New Water Mains

| | |
|-----------------------|--|
| What | Installation of new 8" PVC mains, and installation of new water services and fire hydrants. Abandonment of mains in alleys east of Main and Melrose Streets. |
| When | Construction will commence on August 1st, 2016 with completion expected by October 15th, 2016. The City of Placentia working hours are from 7:00 am to 4:30 pm. |
| Where | The new pipeline will be installed on Main Street from Aguirre Ln to Chapman Ave; Center Street from Main Street to the Alley east of Main St; connection work on Aguirre Ln and Chapman Ave. |
| What to Expect | Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The services will usually be installed using an air compressor and pneumatic boring tool. The streets will generally remain open to traffic during the construction period; however there may be periodic closures. Parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the new main are completed crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving. |
| Contacts | If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033. |

Golden State Water Company thanks you for your patience while we work to improve your water system.

At Golden State Water Company, it has been all about water for more than 80 years. Our team of professionals delivers reliable, quality water and great service to customers in 75 communities across California.
