

Installation of Water Service

What	Installation of water main extension, domestic service, and fire service for the new mixed-use building being constructed at 8408 Garvey Ave. in the City of Rosemead.
When	Construction will commence on June 26, 2017 with a completion expected to be earlier than Mid-October 2017. The City of Rosemead working hours are from 7:00AM to 4:00PM.
Where	The main extension will be installed along the eastbound traffic lane on Garvey Ave. from Delta Ave. to approximately 400 feet west of the intersection. Water service installation will be done on Delta Ave. close to the sidewalks of the northbound traffic.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The services will usually be installed using an air compressor and pneumatic boring tool. The streets will generally remain open to traffic during the construction period; however there may be periodic closures. Parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the new main are completed crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

Golden State Water Company thanks you for your patience while we work to improve your water system.

At Golden State Water Company, it has been all about water for more than 80 years. Our team of professionals delivers reliable, quality water and great service to customers in 75 communities across California.
