

To provide *safe drinking water*, Golden State Water is investing in your water system...

To avoid the costly and sometimes dangerous effects of delaying the replacement of aged infrastructure, Golden State Water is investing in pipes, wells, hydrants and other local projects essential to the treatment and delivery of quality, reliable water.

Our proactive investments to replace and protect your water infrastructure system:

Ensures the safety and dependability of the local water system,

Protects the environment by reducing the company's carbon footprint and its energy demands,

Upholds the fundamental right of every Californian to access safe, clean and affordable water.
