

Golden State
Water Company
A Subsidiary of American States Water Company

Investing in You

Golden State Water is dedicated to maintaining local infrastructure to ensure customers receive safe, high-quality and reliable water they can trust.

In Central Basin West, the new **Gage Well No. 3** is being constructed at the Gage Plant and is expected to produce approximately **1,250 gallons per minute**. This upgrade will strengthen the local groundwater supply and help offset purchased water needs. Drilling was completed in 2024, and the equipping phase is currently underway with completion expected in the fourth quarter of 2026.
