

# CONSTRUCTION NOTICE

Serving Californians Since 1929

## New Water Main, Fire Hydrants and Services in Crooks and Pierce Ave

<b>What</b>	Installation of approximately 1300 LF of new 8-inch PVC water main and 400 LF of new 12-in PVC water main in the shoulder right of way. The project also includes 4 new fire hydrant and 10 domestic services.
<b>When</b>	Construction will begin on or around July 5 <sup>th</sup> , 2017. Construction is expected to last approximately ten weeks with completion by the End of Aug 2017. Working hours will be 7:00 am to 4:30 pm.
<b>Where</b>	Construction will take place on Crooks Ave and Pierce Ave from Lawrence Dale Dr. to Willow Dr. in the City of Barstow.
<b>What to Expect</b>	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment and the new service lines to the water meter. The services will generally be installed using an air compressor and pneumatic boring tool or by mini excavator and hand tools. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the new main are completed crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.
<b>Contacts</b>	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

Golden State Water Company thanks you for your patience while we work to improve your water system.

At Golden State Water Company, it has been all about water for more than 80 years. Our team of professionals delivers reliable, quality water and great service to customers in 75 communities across California.
