Water Company
A Subsidiary of American States Water Company

CONSTRUCTION NOTICE

Water Main Improvements

WHAT	Orchard Road Pipeline: Install approximately 1,200 feet of water main.
WHEN	Construction will commence on <u>07/15/2024</u> with completion expected by <u>09/20/2024</u> . Construction shall be limited to 7:00 am to 5:30 pm [No work on Weekends or Holidays]
WHERE	The new pipeline will be installed on Orchard Road and the intersection at Soares Drive to approximately 600 feet east of Story Street.
WHAT TO EXPECT	Construction crews with excavators, backhoes, dump trucks, crew trucks and other hand tools will be digging along the new pipeline alignment. Nearby streets will remain open to traffic during the construction period, but traffic control will be in place and parking may be restricted. Access to driveways may be limited for short durations of time. The construction crews will make every effort to keep noise and dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the new main are completed crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.

CONTACTS

If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

Golden State Water Company thanks you for your patience while we work to improve your water system.

Ongoing investments in the treatment and delivery of water create sustainable, long-term value for customers in this water system.
