

BE CAREFUL WHAT YOU FLUSH

It's important that we all work together to avoid flushing items down our toilets and drains that could negatively impact local sewers and watersheds.

Remember, your toilets and drains are not trash cans. Sewer pipes and wastewater systems are not designed for the disposal of trash or other items such as medications. Here's what you need to know:

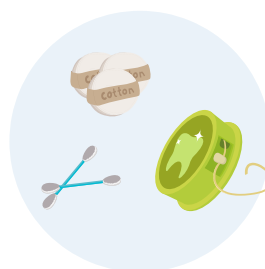

WHAT NOT TO FLUSH:

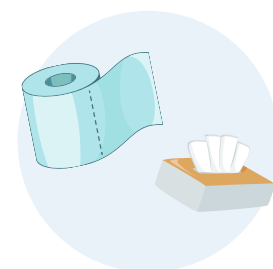

Medications
(dispose at a drug
take-back location)

**Masks, Gloves
& Wipes**

**Qtips, Cotton Balls
& Dental Floss**

**Flushable Wipes,
Tissues & Paper
Towels**

**Diapers & Feminine
Hygiene Products**

**Cat
Litter**

**Fats, Oils
& Grease**

WHAT NOT TO THROW IN THE TRASH

Medications
(dispose at a drug
take-back location)

WHAT IS SAFE TO FLUSH

**Toilet Paper &
Human Waste**
