**GOLDEN STATE WATER COMPANY'S  
NOTICE OF APPLICATION  
REQUESTING TO INCREASE RATES  
SANTA MARIA SERVICE AREA  
(APPLICATION NO. 20-07-012)**

On July 15, 2020, Golden State Water Company (GSWC) filed what is known as a "General Rate Case" (GRC) application with the California Public Utilities Commission (CPUC). The application filing by GSWC requests to increase rates to align with the anticipated costs to provide reliable water service and make critical infrastructure improvements over the three-year period from 2022 through 2024. This application will have no impact on current water rates or rates for 2021. The soonest new rates could take effect would be January 1, 2022.

In this application, GSWC is requesting to consolidate its Los Osos and Santa Maria Customer Service Areas under a new Coastal Region consolidated rate structure for both its residential and non-residential customers.

**Why is GSWC requesting this increase?**

The CPUC requires GSWC to submit a GRC application every three-years. The purpose of this GRC is for GSWC to cover its anticipated costs from 2022 through 2024 for improvements to the water supply system, depreciation expense, purchased power, pension and benefits expense and operating services from central location (such as customer service, water quality and environmental, etc.)

The table below shows the proposed revenue increases by customer class for GSWC's Special Request for the Coastal Consolidation of Santa Maria and Los Osos districts:
