

Proactive investments in system maintenance and new infrastructure are designed to *ensure the safety and reliability of your water system.*

The rates adopted for 2025-2027 will provide customers with long-term value by investing nearly **\$15 million** in proactive capital investments and maintenance of local water infrastructure essential to the delivery and treatment of reliable, quality water.

Calipatria Customer Service Area *Capital Improvements, 2024-2026*

Investments in the Calipatria Service Area include but are not limited to, water distribution projects, structural improvements to several reservoirs, upgrade of water treatment facilities, systemwide technology that monitors and controls the water system, solar generation equipment and the replacement of aging water mains. As part of our commitment to reliability and public safety, Golden State Water proactively invests in upgrading and maintaining its fire hydrants.

Our proactive investments to replace and protect your water infrastructure system:

Ensures the safety and dependability of the local water system.

Protects the environment by reducing the company's carbon footprint and its energy demands.

Upholds the fundamental right of every Californian to access safe, clean and affordable water.
