

Golden State
Water Company
A Subsidiary of American States Water Company

Investing in You

Golden State Water is dedicated to maintaining local infrastructure to ensure customers receive safe, high-quality and reliable water they can trust.

In Los Alamitos, the **Ball Well No. 1, Iron & Manganese Removal System** project represents an important investment in local water infrastructure. The project included installation of an ATEC filter system, a backwash tank, a new chemical building, grading and paving at the site, SCADA controls, and electrical upgrades to control and monitor the treatment process.
