More than $2.3 Million scheduled to be invested in Los Osos

Golden State Water is committed to responsibly maintaining the local water infrastructure to ensure we can continue providing customers with premium water service. These investments protect the safety and reliability of the local water system.

Benefit to Customers

Below are two of the major projects planned for the Los Osos Customer Service Area in 2022. For additional project details, please visit www.GSWater.com/los-osos.

### Project Name: Country Club FE Media Replacement

**Construction Summary**
Construction crews will work to replace the iron filter media in existing filter vessels and replace the existing actuating valves at the iron treatment facility.

**Project Rational**
The project is required to ensure the continued reliability and quality of service to local customers by replacing filter material and valves that have reached the end of their useful life.

**Working Hours**
Monday through Friday | 7 a.m. – 4 p.m.

**Anticipated Project Timeline**
January 2022 through March 2022

### Project Name: Jack Ranch Reservoir

**Construction Summary**
Construction crews will provide a new 250,000 gallon welded steel tank and plant site for Edna Road community.

**Project Rational**
The project is required to ensure the continued reliability and quality of service to local customer by increasing the water storage in the area.

**Working Hours**
Monday through Friday | 7 a.m. – 4 p.m.

**Anticipated Project Timeline**
January 2022 through August 2022

Companywide, an investment of more than $18 million to replace old meters, services, safety equipment, etc. will be made throughout GSWC service areas. This investment is critical to protect the quality and reliability of water service.

Further, we employ proactive maintenance programs and update our aging pipeline infrastructure on a replacement schedule of approximately 100 years, which is twice the national replacement average of every 200 years.

Golden State Water also remains focused on investing to modernize the customer service experience with improved online and account management resources.
