

2025-27 Infrastructure Investments and Water Rates

▶ Customer Service Area: **San Gabriel**

CUSTOMER SERVICE AREA

Golden State Water Company (Golden State Water) provides reliable, high-quality drinking water to approximately 12,300 customers in portions of Arcadia, El Monte, Irwindale, Monrovia, Monterey Park, Rosemead, San Gabriel and Temple City.

In January of 2025, the California Public Utilities Commission (CPUC) adopted Golden State Water Company (Golden State Water) 2023 General Rate Case (GRC), **The rate plan includes local infrastructure investments and water rates for the years 2025, 2026 and 2027.**

The rates support our long-term commitment to providing our customers with high-quality water and reliable service, avoiding the costly and sometimes dangerous effects of deferring maintenance or delaying the replacement of aging infrastructure.

LOCAL WATER INFRASTRUCTURE INVESTMENTS

The rates adopted for 2025-2027 will provide customers with long-term value by investing over **\$11.9 million** in needed capital investments and maintenance of local water infrastructure essential to the reliable production, treatment, and delivery of quality water.

Investments in the San Gabriel Service Area include, but are not limited to, water distribution projects, construct a new reservoir, construct a booster station and replace another booster station, a new well, systemwide technology to monitor and control the water system, and emergency generators needed for uninterrupted production, treatment and delivery of water in the event of power outages and natural disasters and to reduce the strain on the electrical grid, and the replacement of aging water mains. As part of our commitment to reliability and public safety, Golden State Water proactively invests in upgrading and maintaining its fire hydrants.

RATE-MAKING PRINCIPLES

Prioritize the safety and dependability of the local water system.

Protect the environment by reducing the company's carbon footprint and its energy demands.

Mitigate the impact climate change will have on future water supplies by replacing deteriorating water infrastructure and increasing water storage.

Uphold the fundamental right of every Californian to access safe, clean and affordable water.

We never want customers to think twice about the quality of the water coming from their taps.

Proactive Investments in Water Quality & Reliability Provide Customers Long-Standing Value

Customer Service Area: **San Gabriel**

2025 WATER RATES

Customer bills are determined based on the cost-of-service, maintenance, and investments required to maintain a reliable and quality water system. Other factors include but are not limited to, regulatory costs and taxes, inflation, rising energy and fuel costs, and increasing construction costs to replace aging infrastructure. The new rates went into effect February 1, 2025.

The average **residential customer** with a 5/8 X 3/4" meter using 8,228 gallons (1,100 cubic feet or 11 Ccf) per month will see their 2024 monthly bill increase from **\$77.54** to **\$83.17**, effective Feb. 1, 2025 (excluding any applicable surcharges).

The average **commercial customer** with a 5/8 X 3/4" meter using 26,180 gallons (3,500 cubic feet or 35 Ccf) per month will see their 2024 monthly bill decrease from **\$215.75** to **\$214.75**, effective Feb. 1, 2025 (excluding any applicable surcharges).

THE RATE MAKING PROCESS

As a state-regulated utility, Golden State Water must submit a General Rate Case (GRC) application every three years, as set forth by the California Public Utilities Commission (CPUC). For example, the 2020 GRC introduced rates for 2022-24, and three years later, the 2023 GRC application introduces rates for 2025-27. The CPUC requires reasonable rates that reflect the total cost of providing water service, maintaining the infrastructure, and making needed system improvements.

The rate-making process is open and transparent, with opportunities for customers to offer public comments. The Commission's Public Advocates Office is charged with ensuring the lowest possible rates without compromising public health and safety. Golden State Water shared a notice of the proposed rates with customers and in local newspapers.

To learn more about the rate-making process, visit www.gswater.com/2025-27rates.

FINANCIAL ASSISTANCE

Golden State Water offers a monthly credit for low-income customers who qualify for the Customer Assistance Program (CAP). Customers with questions about the CAP program or eligibility are encouraged to visit gswater.com/post/customer-assistance-program or call the CAP Hotline at 866.360.2279.

CONTROLLING WATER BILLS

Golden State Water continues its tiered rate structure by expanding the middle tier to help customers conserve water and control their water bills.
