

Golden State
Water Company
A Subsidiary of American States Water Company

Investing in You

Golden State Water is dedicated to maintaining local infrastructure to ensure customers receive safe, high-quality and reliable water they can trust.

In Simi Valley, we recently completed a major upgrade to our **Supervisory Control and Data Acquisition (SCADA) system**. This technology allows our operations team to remotely monitor and control critical facilities, including pumps, valves and storage sites. With the new SCADA system now fully operational, water operators can respond in real time to system changes such as power outages, leaks, or pressure fluctuations — **improving efficiency, reliability, and response times**.

Our Commitment to Quality and Reliable Service

From 2025-2027, Golden State Water will provide customers with long-term value by investing over **\$13.4 million** in proactive capital investments in the Simi Valley service area and maintaining local water infrastructure, which is essential to the delivery and treatment of safe, high-quality and reliable water.
