Schedule No. SM-1-NR
Santa Maria District
Non-Residential Metered Service

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
2. As authorized by Rule 9.1.e. for customers with more than one meter on a single service line, the customer's service charge rate is based on a factor multiplied by the service charge applicable to the nearest standard meter size of the combined meters as determined by the equivalent diameter methodology.
3. Non-residential Sprinkler rates can be added as needed utilizing the multiplication factors identified in Appendix F of D. 17-03-001, applied to the 5/8" meter charge.
4. As authorized by the California Public Utilities Commission, a surcharge of \$0.166 per Ccf will be applied to all metered customer bills excluding customers that are receiving the CAP credit. This surcharge will offset the CAP credits and CAP administrative program costs recorded in the CAP Balancing Account. (I)
5. Applicants requesting a new service connection, a new water meter or an increase in the size of their existing service connection and/or existing water meter resulting in increased demand within the Santa Maria Customer Service Area, as defined on the Service Area Maps, must provide a source of supplemental water to offset the increased water demand, pursuant to the Court adopted Stipulation in Santa Maria Valley Water Conservation District v. City of Santa Maria, et al. (and related actions), Lead Case No. CV 770214, Superior Court of the State of California, County of Santa Clara, in January 2008, and Commission Decision No. 13-05-011. Where and when available, applicants may remit payment to a third party public agency a water resource demand offset fee in lieu of providing a source of supplemental water, provided such fee fully offsets the cost, and results in the dedication to GSWC, of a source of supplemental water sufficient to meet the water demands of the service requested.

The condition will not apply if one (1) the applicant is not an existing Golden State Water Company customer and provides Golden Stater Water Company with a final Can and Will Serve Letter and/or recorded land use entitlement demonstrating a prior obligation to serve the parcel with water service, or two (2) the applicant is an existing customer (with an existing connection, water meter, and service agreement) and all of the following criteria are satisfied:

- a. The new dwelling is authorized under applicable state and/or local Accessory Dwelling Unit ("ADU") regulations, as they may be amended from time to time.
- b. The new dwelling (and/or request land use entitlement) only requires a ministerial land use permit or other form of land use entitlement.
- c. The applicant currently has one (1) service line/connection of 1-inch or less.
- d. Water service to both the existing dwelling structure and the proposed ADU can be provided with one (1), 1-inch service line/connection or less.
